**HANDS ON,
HAIR UP**

HANDS ON, GRAVITY OFF

The Tommy Bartlett Exploratory is a dazzling, one-of-a-kind playground for your imagination! More than 175 hands-on activities will have you guessing, thinking and exploring the world of science, space and technology.

There's plenty to discover for every member of your family. Like the Original Russian Space Station MIR, and exciting virtual reality experiences, including our highly-popular Virtual Sports Center. Explore an exact replica of the Mercury Space Capsule, and test the laws of physics with the Giant Lever, allowing you to lift a 5,000-lb., full-sized vehicle off the ground! You'll also find computerized interactive games and mind-boggling puzzles. And be sure to test your courage with a ride on our High Wire SkyCycle!* You'll ride on the world's thinnest bike trail, a one-inch cable 12 feet in the air!

All day, every day, the Tommy Bartlett Exploratory is the place for interactive excitement. Once you enter the Exploratory, you're sure to get lost in space, science, technology and fun!

Try illusions that will make you vanish into thin air

Take a thrill ride in the Gyrotron*

*SkyCycle and Gyrotron are seasonal.

Discover the forces behind it all

Lift a full-sized vehicle with the Giant Lever

Experience the Russian Space Station MIR
